

The Litios Light Crystals – Part 2

Peter and Ursula Schnell

In last November's newsletter, Marilyn introduced you to the Litios Light Crystals and we are delighted that she has offered us to write a follow-up article. Here we are able to go deeper into the Litios Light Crystals and highlight their potential for dowzers.

To review, the **Litios Light Crystals of the New Age** are highly energized light tools which are brought to the Earth to raise our energy and frequency as well as that of our surroundings and give us more energy, clarity and vitality. All Litios Light Crystals help to balance our aura, raise our vibration and activate our higher, divine consciousness.

Much of what you read today from alternative sources will tell you that the vibration of the earth is increasing, that higher and stronger energies are coming in, that living beings are going from the 3rd to the 5th dimension and that the Earth is going through a major shift.

Origin of the name "Litios"

The source who brings the Litios Light Crystals to us tells us that the highest Spiritual Councils overseeing the Earth have agreed together with our Earth, Lady Gaia, to reestablish the Crystal Sphere around the planet, which is a sphere similar to the one that existed in Atlantis during the peak times of that mostly spiritually advanced culture. Specifically Archangel Metatron and the Crystals Angels are responsible for building up the Crystal Sphere around the planet once again. Archangel Metatron created the first Crystal Sphere at the beginning of time and creation, the first crystalline city which he calls Litios and which represents the highest and purest manifestation of divine light and crystalline energy.

Litios Light Crystals: Who and How

The Litios Founders, Antje and Edwin Eisele, are a spiritually attuned German couple and are strongly connected to Archangel Metatron who has guided and instructed them on how to produce the Litios Light Crystals. The Archangels have offered to infuse the Litios Light Crystals at this time with the purest light energies from the highest dimensions, to this Crystal Sphere, to the 7th dimension and higher, so that we may have access to this divine energy and knowledge now. This sacred divine infusion happens over a period of several days, requires no human intervention and is undertaken directly by Archangels, Crystal Angels and Ascended Masters.

The Litios Light Crystals have a very wide spectrum of frequencies and dimensions as well as a higher consciousness that actively works through them. They are directly connected to the new energies coming to the planet and are always permeated by this divine flow so there is no need to re-energize them. They do not absorb any negative energy but rather transform the disharmonious energies so there is no need to ever cleanse them. More interestingly, the Light Crystals adapt their energy, frequencies and strength to match the person who has them, they do not overburden them and give off just what you need.

The Litios Light Crystals:

- Create a protective field of light in our aura and in our living spaces,
- Help to release and transform disharmonious energies
- Can harmonize technical radiation and electromog as well as geopathic disturbances
- Can and do energize and harmonize water, food and beverages.

For Dowzers:

For Dowzers who are interested in harmonizing their surroundings, the Litios Light Crystals offer a new paradigm and an extended way of working with these Light Tools. By consciously connecting with them, you can invoke very potent transformational energies that can raise the vibration of your space(s) and that can neutralize and harmonize harmful energies, be they of a technical or extraneous source. As experienced

Dowsers, you would be able to test out the most optimal way of using these powerful Light Tools in many areas of your life and for those around you. For example, you may test that a particular Litios Sphere should be placed in a particular location in your living room and invoked in such a way to generally raise and clear the energy, shield a particular technical radiation (w-LAN, DECT telephone) and bring a particular flow of constant energy into the room which would most benefit it.

The Litios Form:

Litios Light Crystals come as pendants and other articles that can be worn as beautiful pieces of jewelry or they come as ornaments and objects that can be placed in rooms, offices and personal spaces. In addition to the common possibilities listed above, each of the Litios Light Crystals has additional characteristics and everyone has the opportunity to find the right Litios Light Crystal that matches one's own energy and needs. Again, as Dowsers you can easily test which is the right crystal for you or find the right crystal for a specific use.

Litios Light Crystals often used in House Harmonization

The powerful Angel's Gate, also called the Gate of Ascension, has many facets. It's main strength is to open a mighty channel into the higher spheres and connect to the primordial crystal energies. It fills not just rooms and houses but entire buildings in a protective field of light and fills them with energy and harmony. It is a type of cosmic transmitting and receiving station and you feel uplifted, free, lightened and surrounded by loving energies. It is a very popular Litios Crystal for house harmonization and meditation rooms.

Other spheres such as the Dolphin Sphere or Unicorn Sphere help us to bring in gentle energy and both are excellent for harmonizing rooms and for a good night's sleep. They balance the emotions and are especially suitable for meditation and therapy rooms as well as children's rooms, bedrooms, rooms of relaxation and tranquility, places where animals stay or in stables.

The Mirror of Amenti offers intensified grounding and on a deeper level, reconciliation with the Earth and yourself. You can connect to the Wisdom of the Halls of Amenti deep within the Earth where the Masters meet, where much of the wisdom of the Earth is stored and which was brought there after the fall of Atlantis. On a practical level, this grounding ability is excellent for harmonizing harmful earth radiation, fault lines, computers and workplaces.

The work with the Litios Light Crystals is quite complementary with virtually every spiritual practice or item you utilize. Many people from all walks of life integrate their crystals in whatever their work is and often report many positive changes in their environment and with those around them. On the Litios.ca website, you can see detailed product descriptions and uses as well as a number of testimonials which can give you additional ideas as to how the Litios Light Crystals can enrich your life.

In terms of personal growth, the Litios Light Crystals allow you to clearly go into your own power, be independent of what goes on around you, own more of your creative power and so become master of your own life. They can help you to release and remove barriers that hold you back, to open yourself to greater abundance and enable you to experience greater joy and love in all aspects of your life. Many people who have Litios Light Crystals claim to feel a deepened sense of peace and harmony, as well as a connection to something higher and intensely loving.

So we see the Litios Light Crystals as a gift from the spirit plane and Archangel Metatron which is available to anyone as we shift with the Earth to a higher vibration. We also see it as an acknowledgement that we have collectively developed far enough on our path that the Masters and Teachers entrust us once again with Divine Light tools for the betterment of the planet and humanity.

We will be at the **Total Health Expo April 5-7** at the Toronto Metro Convention Centre and we invite you to visit, experience, feel and test the Litios Light Crystals for yourself.
